PROFESSIONAL SUMMARY

Motivated Computer Engineering student with skills in Java Full Stack Development, React.js, Spring Framework, SQL, and Power BI. Experienced in developing responsive web applications and interactive dashboards. Seeking internship or entry-level opportunities in Software Development and Data Analytics.

EDUCATION

Secondary School Certificate (10th Standard)

Vidya Niketan | Maharashtra Board | 89.60%

[Jun 2020]

Higher Secondary Certificate (12th Standard)

Holy Angels' Junior College | Maharashtra Board | 82.17%

[Jun 2022]

Bachelor of Engineering (B.E.), Computer Engineering

Dilip Research Institute of Engineering And Management Studies | University of Mumbai | 7.64 CGPA

[Oct 2022 --- Jun 2026]

SKILLS

Programming Languages: Java, JavaScript, HTML5, CSS3, Python

Frontend Development: React.js, Bootstrap, jQuery, AJAX, Responsive Web Design

Backend Development: Advanced Java, Spring Framework, Hibernate, REST APIs

Database & Tools: MySQL, MSSQL, Git, GitHub, VS Code, Power BI, Excel

Data Analytics: Data Visualization, Dashboard Development, Data Cleaning, KPI Analysis, Business Insights

PROJECTS

Raksh-Aid – Emergency Assistance & Safety Application

Developed Raksh-Aid, a smart emergency response and safety platform focused on real-time safety, rapid communication, and community support. The application includes key features such as real-time SOS alerts with GPS tracking, voice-activated emergency assistance, risk-level analysis, nearby emergency service integration, cyber help center, mental health support, volunteer driver assistance, live admin monitoring dashboard, and multi-language accessibility. Built responsive and user-friendly interfaces with secure REST API integration to improve accessibility, emergency response efficiency, and public safety support.

Technologies Used: HTML5, CSS3, JavaScript, Node.js, Express.js, MySQL, Leaflet.js, OpenStreetMap, JWT, REST APIs

Barista Cafe Website - HTML, CSS, Bootstrap, JavaScript, React.js

Built a responsive cafe management website with modern UI design and interactive frontend components. Developed multiple pages including menu, services, and contact sections with responsive layouts and smooth user experience.

KidSpark AI Landing Page - React 19, TypeScript, Tailwind CSS, Framer Motion, Node.js, Express, MongoDB, Vercel

KidSpark AI is a promotional website to showcase and manage registrations for an AI and Robotics workshop for school students, helping them develop creativity, problem-solving, and future-ready skills.

Rapido Ride Analytics Dashboard - Power BI, DAX, Power Query, Excel

Developed an interactive Power BI dashboard to analyze ride bookings, cancellations, revenue, customer ratings, and driver performance using DAX measures and Power Query. Delivered actionable business insights through KPI cards, trend analysis, and dynamic visualizations to support data-driven operational decision-making.

NGO Impact & Donor Analytics Dashboard - NayePankh Foundation Dashboard - Power BI, DAX, Excel, Data Visualization

Developed during my internship at NayePankh Foundation. Provides comprehensive insights into donations, donor engagement, beneficiary outreach, scholarships, volunteer participation, and program impact using Power BI. Transforms NGO operational data into meaningful visual insights to support data-driven decision-making and measure social impact.

CERTIFICATIONS

Java Full Stack Developer - CADD Centre, Thane

Machine Learning Certification - Internshala

Master Data Analytics – Udemy

Data to Dashboard in Power BI - Satish Dhawale

Data Analytics Essentials - Cisco Networking Academy

ACCOMPLISHMENTS

State & Inter-Level UCMAS Champion

Runner-up - All India UCMAS ABACUS Mental Arithmetic Competition

English Marathon Winner
